

My wife and I have lived in Poway for over ten years. I have been familiar with Poway since 1991. I have worked at a local pharmacy retailer for over ten years. What first inspired me to run for Mayor in 2018 was the loss of the community church thrift shops in the carriage center on Poway road. The Poway road specific plan was decided by twenty people without consideration to residents. Due to all the construction projects especially on Poway road traffic has become a major problem. Many of the rules and Propositions that concern us today were decided in the 1980s. If Elected Mayor I will form a Residential District review committee that will meet once a month at city hall to discuss the issues that concern residents. I will be a full time Mayor to the residents of Poway I will represent everyone even those who didn't vote for me. I will listen to your concerns and together we will find solutions. Here are some of my goals Expand senior programs, Homeless prevention and reexamining zoning laws and housing mandates that are unfair. Together we can make Poway the city in the country again.
Sincerely Yuri Bohlen
